

HHHi,

We are very excited to confirm that **from Monday 18th February to Tuesday 26th February**, you will receive an email with your login details to allow you to book a cabin/berth for yourself and your partner(s).

You can check the exact date and time when you will receive this email by looking at <https://eurohash2019.com/whos-cummin/>. All dates and times are based on the time in the UK. To avoid hash confusion, there is a clock with the current UK date and time at the bottom of this page.

User accounts will be activated every 15 minutes, so one hour delay to book your cabin means that an extra 4 people have accounts activated, so there's no mad panic to book it in the initial minute! Timings are based on the order you registered and as such may be sent to you at 3am in the morning. This doesn't mean that you have to get up specifically at this time to complete the booking, as your account will remain active from this point onwards.

You can book multiple berths in a single cabin under the same booking or book a full 2 berth cabin, however you cannot book multiple cabins. We want the process to be fair, so if multiple cabins are booked under the same username, all cabins will be revoked and you will be only be able to book cabins at the end of the booking process, so please don't share your details or book multiple cabins.

Once you have booked your cabin, it is essential that you fill in your details, along with your run preferences, in the spreadsheet via the second linked button. We require these details to aid people in there booking experience and also to make sure that you get the type of run you would like to attend. At this stage, you are not booking any runs, so you are not fixed to the run preferences you provide. This sheet should only take a couple of minutes to complete.

On the booking page, you will also see multiple guides to help you through your booking experience. We recommend completing the booking at a computer with stable internet to further ease your experience, although it should work on mobile phones/tablets. During the next couple of weeks, we may receive quite a lot of emails seeking help, so please check the guide first and only email urgent inquiries.

On On,

Your Eurohash Committee
